| Job Title: | Nurse Practitioner | Range: | 68 |
| Date Revised: | | Date Approved: | |

PRIMARY PURPOSE

This position is responsible for performing clinical and educational services in support of the overall operation of a college Health Services Center. Working independently and under general supervision, the Nurse Practitioner administers direct medical care, including diagnosis and treatment to patients, utilizing written procedures and protocols as guidelines.

ESSENTIAL FUNCTIONS

Examples of essential functions are interpreted as being descriptive and not restrictive in nature.

| | |
|----|---|
| 1. | Provides direct patient care in accordance with Standardized Policies and Procedures, and consistent with community standards and Health Services Center policies and procedures; assures timely patient care; maintains an understanding of the social and environmental context of health on the college campus. |
| 2. | Takes appropriate health history according to presenting complaint and physical findings, including pertinent negatives; formulates appropriate medical and nursing assessment of patient problems; discriminates between normal and abnormal findings and determines when to collaborate or refer to physician and/or specialist for further evaluation and/or treatment; provides feedback and/or follow-up to patients in a timely manner. |
| 3. | Formulates appropriate disposition and/or treatment plan, including ordering and interpreting diagnostic tests, implementing therapeutic treatment modalities (including medications), and providing appropriate patient instruction; determines the need for appropriate follow-up care and arranges for appropriate referrals of patients. |
| 4. | Evaluates the total health care needs of patients and develops plans to meet those needs; provides counseling and support to patients as appropriate; integrates health education and instruction in health maintenance and disease prevention, including guidance in nutrition, risk factors, episodic illness, contraception and self-care; collaborates with other disciplines in planning, developing, gathering, implementing, and evaluating patient education materials. |
| 5. | Works collaboratively and cooperatively with the health care team in the management of medical, psychological and urgent conditions; consults Medical Director and colleagues when appropriate; refers administrative inquiries, patient complaints and concerns to appropriate supervisor; participates in the Quality Assurance activities and in the development of standards, policies and protocols essential to the delivery of quality medical, nursing and preventative health care services. |
| 6. | Legibly and accurately charts patient care, progress and current status; records content of all patient encounters within patient's medical records in the S-O-A-P format when appropriate; maintains up-to-date patient health history, including documentation of medication allergies; completes appropriate forms as needed; maintains professional standards of documentation. |
| 7. | Trains and provides work direction and guidance to others as directed; serves as a resource person for other nursing staff in the enhancement of basic nursing practice. |
| 8. | Learns and applies emerging technologies and advances (e.g., computer software applications) as necessary to perform duties in an efficient, organized, and timely manner; maintains certifications and clinical competencies that are consistent with the focus of practice. |
