SUBJECT: Student Accident and Intercollegiate
Athletic Accident Insurance for 2018-19

BACKGROUND: Student accident insurance provides coverage for injuries to students on campus and athletes during practice and competition. The District participates in Student and Athlete Insurance Network (S.A.I.N.) program, a medical insurance plan underwritten by Anthem Blue Cross. This is a risk pool plan with approximately forty (40) other colleges, and the premium is based on the number of enrolled students/athletes rather than the claims/loss experience. This program offers spread of risk, more stability, and is slower to react to adverse claims experience and fluctuating market conditions. The number of participating physicians are vast through the Blue Cross network, and the discount on charges is significantly more than the conventional insurance programs. The catastrophic insurance is provided by AIG Insurance with uninterrupted coverage of up to \$1,000,000.

Access to the desired providers is easy, and the average annual PPO discount in costs is 68%. Due to the deep discounts, the District's average loss-pay ratio to the premium is 58%, (not including the 2017-18 losses, which have not matured yet). While the District's loss ratio does not directly impact the premium in this program, the loss trend and the combined losses for S.A.I.N. will affect insurance rates for future years, for all members. The District's true loss ratio (before the discounts) are as follows: 2013-14, 296%; 2014-15, 107%; 2015-16, 190%; 2016-17, 142%; and 2017-18, 55%, although this year's claims will not mature until next year. As is evident, the cost of claims exceeded the amount of premium paid each year. In a traditional student accident insurance, the premium would have increased by 50% or more. Therefore, participating in the S.A.I.N. program has served the District well.

The risk pool performed well due to better utilization of the Anthem Blue Cross network by all members. In addition, two new members to the network increased the base and there is a 4% premium decrease for 2018-19. As expected, the majority of claims were from football, followed by soccer and basketball. The injuries mostly resulted from contact/collision and while jumping, running and pivoting, which are the essential aspects of these sports. All efforts have been made to mitigate athlete injuries such as the concussion and conditioning programs, diligent use of braces, and maximum services by the athletic trainers before, during, and after the sports season. The athletic departments and District personnel also meet at the end of each year to review the claims reports and discuss strategies, including implementation of pilot programs to mitigate the losses as much as possible.

The catastrophic insurance rate from AIG (commercial insurance) has increased by 5% based on its nationwide aggregate loss experience.

The premium amounts for the multiple layers of coverage for the previous years and the new fiscal year are as follows:

	<u>2015-16</u>	<u>2016-17</u>	<u>2017-18</u>	<u>2018-19</u>
Basic Student	\$210,960	\$214,600	\$200,401	\$191,884
Basic Catastrophic	5,366	5,742	5,856	6,148
Athletes	Included	Included	Included	Included
Athletes Catastrophic	7,644	8,179	8,343	8,760
Total	\$223,970	\$228,521	\$214,600	\$206,792

This agreement will be on file in the District Business Office.

This agenda item was submitted by Tami A. Oh, District Director, Risk Management.

		Information	<u> </u>
SUBJECT:	Amend Consultant Agreement with R ² A Architecture (R ² A) for Architectural and Engineering Services for the Anaheim Campus Upper Deck Parking and Foundation Leak Pre-Design Study	Enclosure(s)	<u> </u>

BACKGROUND: On January 23, 2018, the Board approved to enter into a consultant agreement with R2A Architecture to provide architectural and engineering services for the Anaheim Campus Upper Deck Parking Lot and Foundation Leak Pre-Design Study. The destructive probing and required repairs commenced on June 15, 2018 and has been ongoing. The District requested R2A and Alana Buick & Bers (ABBAE), the water intrusion specialist, and Rodriguez Engineering, Inc., the structural engineer, (the three parties together herein referred to as “the Observation Team”) to provide site observations during the demolition work in order to monitor the contractor’s work and evaluate the condition of the opened locations. The on-site observations enabled the Observation Team to document the demolition by diligent measuring, photographic means, and with drawings & sketches.

Through the process of discovery and destructive testing, the scope of the areas of improvement have increased extensively. The once small blistered and valley areas have grown enormously in size. Also, surmising from differing sectional profiles observed from one test pit on the deck to another in as little as eight feet apart, the Observation Team noted that the deck might not have been built pursuant to the Office of Statewide Health Planning and Development (OSHDP) approved drawings.

Now that the project scale has increased, the Observation Team is required to more closely monitor and document the assembly of the original construction, which requires the Observation Team to be on the site with a greater frequency and duration. It is requested that the consultant agreement with R2A be amended and the contract amount increased by \$30,000 from \$118,766 to \$148,766. The real-time information derived from the Observation Team’s annotations are critical to the accuracy of the Findings Report and the resulting recommendation/s for the resolution of the water intrusion that has been a continuing concern for the District due to the safety hazards it creates.

In addition, staff has requested R2A to provide additional architectural and engineering services to evaluate the existing upper deck parking lot as it pertains to the load capacity of the parking deck to: 1) support fire trucks per the Orange County Fire Authority Standards; 2) maintain its current use as staff parking, and 3) support the installation of solar arrays. Further, the findings from the evaluation may be essential in making a determination as to what step the District will take once the Findings Report from the Foundation Leak Pre-Design Study is finalized.

R2A proposes to provide the additional services for a fee of \$20,025, plus reimbursables in a not-to-exceed amount of \$800. R2A's fee shall be invoiced on an hourly basis. A separate contract will be issued for this scope of work. This information is being presented to the Board for information only.

This agenda item was submitted by Fred Williams, Vice Chancellor, Finance & Facilities.

How does this relate to the five District Strategic Directions? This item responds to Direction #4: The District will implement best practices related to planning including: transparent decision-making processes, support of strategic and comprehensive planning activities at campus and District levels, and the allocation of resources to fund planning priorities.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 6330, Purchasing/Warehouse.

FUNDING SOURCE AND FINANCIAL IMPACT: The increase in R2A's fees of \$30,000 shall be charged to Capital Outlay funds.

RECOMMENDATION: Authorization is requested that the consultant agreement with R2A Architecture to provide architectural and engineering services for the Anaheim Campus Upper Deck Parking Lot and the Foundation Leak Pre-Design Study be amended, and the contract amount increased by \$30,000 from \$118,766 to \$148,766. All other terms of the agreement remain the same. Authorization is further requested for the Vice Chancellor, Finance & Facilities, or the District Director, Purchasing, to execute the agreement on behalf of the District.

SUBJECT: Amend Agreement with Westberg & White
for the Renovation of the Existing Baseball
Field and Supporting Structures at
Cypress College

BACKGROUND: On August 23, 2016, the Board authorized an agreement with Westberg & White for the renovation of the existing baseball field and supporting structures at Cypress College in the amount of \$97,000 plus \$2,000 reimbursable expenses.

The project originally planned to bid in two phases. However, in order to minimize the impact on instruction, the project needs to be separated into three phases. The first phase of Field Leveling was completed during the summer of 2017. The second phase is the baseball dugouts, bullpen, practice areas and site accessibility upgrades. The third phase will comprise of the Relocatable building and installation related construction. By splitting the project into three phases, it allows the baseball program to function as required with limited interruption.

Additional fees of \$32,000 is required for the additional phase and includes the following architectural services:

- Separate and modify architectural and engineering documents to reflect the required changes.
- Submit the new phase of work to DSA for review and approval.
- Assist the College with the bidding phase for support infrastructure for relocatable installation.
- Provide construction administration during the construction phase for relocatable installation and supporting infrastructure.
- Provide required project closeout activity for all phases.

This agenda item was submitted by Robert Riffle, Interim Director of Facilities & Physical Plant at Cypress College.

		Enclosure(s)	X
SUBJECT:	Accept the 2020/21-2024/25 Five-Year Construction Plan and the 2020/21 First State Funding Year Projects		

BACKGROUND: The Five-Year Construction Plan (5YCP) is an annual summary of current and proposed capital outlay projects that exceed \$250,000, regardless of the funding source (local vs. state), as mandated by the Community College Construction Act of 1980, pursuant to California Education Code §81800, et al. The 2020/21-2024/25 5YCP is due before August 1, 2018 to the California Community Colleges Chancellor’s Office.

The 5YCP is a useful tool, which not only incorporates years 2020/21 through 2024/25, but also includes data from two years prior. The information collected allows the District to measure the utilization of facilities by the capacity of facilities to the demands created by the actual projected enrollment of a college or center. It serves as the foundation for capital outlay funding applications by delineating the capacity-load ratios for five categories of space, as defined in Title 5 of the California Administrative Code: lecture, lab, office, library, and audio-visual/TV media. It also communicates to the State Legislature, through control agencies, the capital outlay needs of a community college district over a five-year period.

The District’s 5YCP project priority order is determined by the project scope, proposed budget, anticipated time frame, justification for the project’s given condition, capacity adequacy, and cost efficiency, as well as funding source. The project list serves two purposes:

- 1) Establish the basis to justify the projects for which Initial Project Proposals (IPPs) and Final Project Proposals (FPPs) are being prepared.

- 2) Provide the California Community Colleges Chancellor’s Office with an understanding of the overall need for each project.

The District is submitting 19 projects in its 2020/21 5YCP using both local and state funding. The funding schedule covers preliminary plans (P), working drawings (W), construction (C), and equipment (E). The total cost does not include consultant management fees (program and construction).

The District has been approved by the California Community Colleges Chancellor’s Office to submit the following documents with the 2020/21 5YCP:

- One 2020/21 Initial Project Proposals (IPP) Fullerton College Performing Arts Complex

- One Cypress College 2020/21 Final Project Proposal (FPP) resubmittal for Cypress College Fine Arts Building #2 Renovation. Previously submitted IPPs and FPPs remain the same.

This agenda item was submitted by Richard Williams, District Director, Facilities Planning & Construction.

How does this relate to the five District Strategic Directions? This item responds to Direction #4: The District will implement best practices related to planning including: transparent decision-making processes, support of strategic and comprehensive planning activities at campus and District levels, and the allocation of resources to fund planning priorities.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 6330, Purchasing/Warehouse, and Board Policy 6600, Capital Construction.

FUNDING SOURCE AND FINANCIAL IMPACT: There is no financial impact related to submitting the District's 5YCP.

RECOMMENDATION: It is recommended that the Board of Trustees approve the North Orange County Community College District's 2020/21-2024/25 Five-Year Construction Plan prepared and submitted in compliance with California Education Code §81800, et. al. and the California Community Colleges Chancellor's Office directives to meet the submittal deadline of August 1, 2018. Previously submitted IPPs and FPPs remain the same.

SUBJECT: Innovative Performance Solutions, Inc.
Increase in Purchase Order for 2017-2018

BACKGROUND: Innovative Performance Solutions, Inc. (IPS) was retained by the Office of Human Resources to assist with the design, implementation and processes needed for several HR technology initiatives, including position management, onboarding, learning management systems and performance evaluation modules. Principal Nicola Perry serves as liaison and coordinator for HR and other District Services departments, software/technology vendors, and Ellucian/Banner, in the development of business process changes, software acquisition, design and implementation, and training for staff.

More time than initially anticipated was required for various projects. An example of a significant project that required additional time is the Online Time and Attendance program, built for student and hourly workers. This project included Finance, Payroll, IS and HR; and included multiple campus and end-user visits to build a responsive and accurate system that met the needs of the campus communities.

In addition to these HR-based projects, IPS was subsequently asked to assist the Chancellor's Office and Office of Educational Services and Technology in business process and other projects. Vice Chancellor Dr. Li-Bugg and Chancellor Marshall have asked Nicola Perry to provide business process analysis (BPA) services regarding the NOCCCD new student onboarding, technology-based solutions to student onboarding and assistance with various Guided Pathways initiatives. Student Engagement at all three institutions in the District is being explored via the use of a single mobile application created with three distinct instances to accommodate the unique Cypress, Fullerton and NOCE student populations.

The additional required time for HR-based projects as well as the increased scope to assist the Educational Services and Technology Office and the Chancellor's Office have required increases to the initial purchase order.

The hourly rate is \$65.00 per hour and the approved contract is from July 1, 2017 to June 30, 2018. The original blanket purchase order was for \$80,000. On March 13, the Board approved a request to increase the purchase order by \$50,000 to cover the estimated increase in costs. An additional increase of \$8,103.17 is now requested to complete this purchase order for services provided this fiscal year. The total amount of the contract is \$138,103.17.

This agenda item was submitted by Irma Ramos, Vice Chancellor of Human Resources.

How does this relate to the five District Strategic Directions? This item responds to Direction #1: The District will annually improve the rates of completion for degrees, certificates, diplomas, transfers, transfer-readiness requirements, and courses. With a focus on objective 1.2, initiatives that IPS is currently charged with are expected to utilize new technologies to assemble and coordinate information about curricular offerings in an attempt to increase student success.

This item also responds to Direction #4: The District will implement best practices related to planning including: transparent decision-making processes, support of strategic and comprehensive planning activities at campus and District levels, and the allocation of resources to fund planning priorities.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 6340, Contracts.

FUNDING SOURCE AND FINANCIAL IMPACT: Funding will come from Institutional Effectiveness Partnership Initiative (IEPI) and General funds.

RECOMMENDATION: Authorization is requested to increase the purchase order for Innovative Performance Solutions, Inc. (IPS) from \$130,000 to \$138,103.17. The terms of the agreement remain July 1, 2017 to June 30, 2018. Authorization is also requested for the Vice Chancellor, Finance & Facilities, or the District Director, Purchasing, to amend the agreement on behalf of the District.

DATE:	July 24, 2018	Information	X

SUBJECT:	Cypress College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Los Alamitos Unified School District		

BACKGROUND: On November 5, 2015, the Governor signed into legislation AB 288 that established the College and Career Access Pathways (CCAP) Act to authorize California Community College districts to enter into formal partnership agreements with local high school districts to expand access to dual enrollment opportunities for high school students.

The goals of offering or expanding opportunities are to:

- Increase exposure to college coursework and environments for students who may not already be college bound or who are underrepresented in higher education,
- Develop seamless pathways from high school to community college for career technical education or preparation for transfer,
- Improve high school graduation rates, and
- Assist high school students in achieving college and career readiness.

The community college is prohibited from providing physical education course opportunities to high school students participating in the AB 288 CCAP Partnership Agreement or any other courses that do not assist in the attainment of at least one of these goals.

In addition to college exposure and becoming more college and career ready, high school students enrolled in CCAP Partnership Agreement courses will not incur a fee, potentially reducing a significant cost of their college degree. This agreement is submitted to the Board for first reading and discussion. This item was prepared by Henry Hua, Dean of Business and CIS.

How does this relate to the five District Strategic Directions? This item responds to all five District Strategic Directions from student completion to reducing the achievement gap to student success in pathways to planning best practices to community partnerships.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 3250: Institutional Planning

FUNDING SOURCE AND FINANCIAL IMPACT: AB 288 makes it possible for community college districts to collect apportionment for CCAP Partnership Agreement classes offered at

high schools provided attendance requirements for high schools are met; therefore, this has the potential to not only increase student access and success but also generate more funding for NOCCCD.

RECOMMENDATION: It is recommended that the Board review and discuss the Cypress College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Los Alamitos Unified School District.

SUBJECT:	Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Brea Olinda Unified School District		

BACKGROUND: On November 5, 2015, the Governor signed into legislation AB 288 that established the College and Career Access Pathways (CCAP) Act to authorize California Community College districts to enter into formal partnership agreements with local high school districts to expand access to dual enrollment opportunities for high school students.

The goals of offering or expanding opportunities are to:

- Increase exposure to college coursework and environments for students who may not already be college bound or who are underrepresented in higher education,
- Develop seamless pathways from high school to community college for career technical education or preparation for transfer,
- Improve high school graduation rates, and
- Assist high school students in achieving college and career readiness.

The community college is prohibited from providing physical education course opportunities to high school students participating in the AB 288 CCAP Partnership Agreement or any other courses that do not assist in the attainment of at least one of these goals.

In addition to college exposure and becoming more college and career ready, high school students enrolled in CCAP Partnership Agreement courses will not incur a fee; potentially reducing a significant cost of their college degree. This agreement is submitted to the Board for first reading and discussion. This item was prepared by Dr. José Ramón Núñez, Vice President, Instruction, Fullerton College.

How does this relate to the five District Strategic Directions? This item responds to all five District Strategic Directions from student completion to reducing the achievement gap to student success in pathways to planning best practices to community partnerships.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 3250: Institutional Planning

FUNDING SOURCE AND FINANCIAL IMPACT: AB 288 makes it possible for community college districts to collect apportionment for CCAP Partnership Agreement classes offered at

high schools provided attendance requirements for high schools are met; therefore, this has the potential to not only increase student access and success but also generate more funding for NOCCCD.

RECOMMENDATION: It is recommended that the Board review and discuss the Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Brea Olinda Unified School District.

SUBJECT:	Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Fullerton Joint Union High School District	Information	X
		Enclosure(s)	X

BACKGROUND: On November 5, 2015, the Governor signed into legislation AB 288 that established the College and Career Access Pathways (CCAP) Act to authorize California Community College districts to enter into formal partnership agreements with local high school districts to expand access to dual enrollment opportunities for high school students. The goals of offering or expanding opportunities are to:

- Increase exposure to college coursework and environments for students who may not already be college bound or who are underrepresented in higher education,
- Develop seamless pathways from high school to community college for career technical education or preparation for transfer,
- Improve high school graduation rates, and
- Assist high school students in achieving college and career readiness.

The community college is prohibited from providing physical education course opportunities to high school students participating in the AB 288 CCAP Partnership Agreement or any other courses that do not assist in the attainment of at least one of these goals.

In addition to college exposure and becoming more college and career ready, high school students enrolled in CCAP Partnership Agreement courses will not incur a fee; potentially reducing a significant cost of their college degree. This agreement is submitted to the Board for first reading and discussion. This item was prepared by Dr. José Ramón Núñez, Vice President, Instruction, Fullerton College.

How does this relate to the five District Strategic Directions? This item responds to all five District Strategic Directions from student completion to reducing the achievement gap to student success in pathways to planning best practices to community partnerships.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 3250: Institutional Planning

FUNDING SOURCE AND FINANCIAL IMPACT: AB 288 makes it possible for community college districts to collect apportionment for CCAP Partnership Agreement classes offered at

high schools provided attendance requirements for high schools are met; therefore, this has the potential to not only increase student access and success but also generate more funding for NOCCCD.

RECOMMENDATION: It is recommended that the Board review and discuss the Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Fullerton Joint Union High School District.

SUBJECT:	Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Placentia – Yorba Linda Unified School District		

BACKGROUND: On November 5, 2015, the Governor signed into legislation AB 288 that established the College and Career Access Pathways (CCAP) Act to authorize California Community College districts to enter into formal partnership agreements with local high school districts to expand access to dual enrollment opportunities for high school students. The goals of offering or expanding opportunities are to:

- Increase exposure to college coursework and environments for students who may not already be college bound or who are underrepresented in higher education,
- Develop seamless pathways from high school to community college for career technical education or preparation for transfer,
- Improve high school graduation rates, and
- Assist high school students in achieving college and career readiness.

The community college is prohibited from providing physical education course opportunities to high school students participating in the AB 288 CCAP Partnership Agreement or any other courses that do not assist in the attainment of at least one of these goals.

In addition to college exposure and becoming more college and career ready, high school students enrolled in CCAP Partnership Agreement courses will not incur a fee; potentially reducing a significant cost of their college degree. This agreement is submitted to the Board for first reading and discussion. This item was prepared by Dr. José Ramón Núñez, Vice President, Instruction, Fullerton College.

How does this relate to the five District Strategic Directions? This item responds to all five District Strategic Directions from student completion to reducing the achievement gap to student success in pathways to planning best practices to community partnerships.

How does this relate to Board Policy: This item is submitted in accordance with Board Policy 3250: Institutional Planning

FUNDING SOURCE AND FINANCIAL IMPACT: AB 288 makes it possible for community college districts to collect apportionment for CCAP Partnership Agreement classes offered at

high schools provided attendance requirements for high schools are met; therefore, this has the potential to not only increase student access and success but also generate more funding for NOCCCD.

RECOMMENDATION: It is recommended that the Board review and discuss the Fullerton College CCAP Dual Enrollment Partnership Agreement 2018-2021 with Placentia-Yorba Linda Unified School District.

BACKGROUND: Fullerton College has been working with the Fullerton School District (K-8) to provide courses for middle school students in order to explore career pathways. All of the classes have been offered using a contract education model and Fullerton School District reimburses the College for the cost of instruction. Specifically, in Spring 2017 and Spring 2018, Introduction to Programming was offered at Parks Junior High School and the effectiveness led to a request for additional courses during the 2018/19 school year:

- Parks Junior High School – Introduction to Computer Game Design (CISG 100) and Introduction to Programming for Computer Games (CISG 110)
- Nicholas Junior High School – Introduction to Digital Art (DART 100) and Introduction to Maya 3D (DART 104)
- Ladera Vista Junior High School of the Arts – Acting for the Camera (THEA 222)

This item was prepared by Dr. José Ramón Núñez, Vice President, Instruction, Fullerton College.

SUBJECT:	Fullerton College Curriculum Matters		

BACKGROUND: The Office of Instruction and the Curriculum Committee at Fullerton College and the District Curriculum Coordinating Committee have approved the attached summary of curriculum changes. All changes serve the mission of Fullerton College and are within the allocated budget for staff and facilities.

The Educational Master Plan has indicated that "instructional programs need to be continually reviewed as to viability and priority" and the curriculum "needs to provide state-of-the-art training in vocational programs." The assessment process, mandated by the state, provides several reasons for the proposed curricular changes: (1) to meet changing employment requirements, as per the recommendations of both the faculty and advisory committees; (2) to expand and streamline certificate programs in keeping with state mandates; (3) to provide meaningful categorization of Faculty Service Areas; (4) to provide specific courses to meet student needs; (5) to restructure programmatic curricula; and (6) to eliminate courses that either are no longer critical or that have been subsumed into other curricular offerings.

All curricula are submitted to the President's Office for review prior to submission to the District Curriculum Coordinating Committee. This agenda item is submitted by Dr. Jennifer Combs, Fullerton College Curriculum Committee Chair and Dr. José Ramón Núñez, Vice President, Instruction.

How does this relate to the five District Strategic Directions? This item responds to District Strategic Direction #1: The District will annually improve the rates of completion for degrees, certificates, diplomas, transfers, transfer-readiness requirements, and courses.

How does this relate to Board Policy: The curricula are being submitted to the Board for approval as outlined in Board Policy 4020, Program and Curriculum Development.

FUNDING SOURCE AND FINANCIAL IMPACT: Funding for all curricula comes from the campus general fund.

RECOMMENDATION: It is recommended that the Board approve the attached summary of curriculum changes for Fullerton College, to be effective Fall 2018. The curricula have been signed by the Campus Curriculum Chairperson and the College President, and have been approved by the District Curriculum Coordinating Committee.
