For purposes of this procedure, the word "secured" means protection of District systems and data from unauthorized use.
 - 2.2 Access to the District's computer and electronic communications systems is a privilege that may be revoked or restricted by the Chancellor or designee at any time without prior notice and without the consent of the user. Some reasons for revocation or restriction of access to services include, but are not limited to, the following:

3.0 Privacy Disclosure and Use Disclaimer

- 3.1 District Electronic Communication Systems and services are District property. Any electronic mail address or account associated with the District, or any sub-unit of the District, assigned by the District to individuals, sub-units, or functions of the District, is the property of the District. Users should be aware that because of the nature of electronic communications and the public character of the District's business, the District's computer and electronic communication systems are not private. Users should be aware that there is no expectation of privacy or confidentiality in the content of electronic communications or computer files sent and received on the District's systems or stored in the users' directories, and therefore, users should exercise extreme caution in using electronic communications to communicate or store information of a confidential or sensitive nature. In the event a search of an employee's computer files is authorized, a reasonable effort must be made to secure technical assistance from a site other than the worksite of the employee whose files are being searched.
 - 3.5 The District cannot protect users from receiving electronic communications they may find offensive, nor can the District guarantee the authenticity of electronic communications received, or that electronic communications received were in fact sent by the purported sender. Users are responsible for materials they access and disseminate on the District's computer and electronic communication systems.
