NOCCCD

NOCCCD AT A GLANCE

Two of the state's premiere colleges and one of the most extensive continuing education program combine to provide the quality educational programming of the North Orange County Community College District (NOCCCD). Nearly 56,000 students enroll each term at Cypress College, Fullerton College, and North Orange Continuing Education (NOCE). College students are able to shape their futures in programs leading to associate degrees, career certificates, and transfer opportunities. Life-long learning also is possible in continuing education programs that range from high school completion and basic skills mastery through an array of career technical training and self-development courses. The NOCCCD campuses serve an area of over one million diverse people—each pursuing their own, unique ambitions.

The District encompasses approximately 155 square miles. Boundaries extend to the Riverside County line on the east and the Los Angeles County line on the west and north. A portion of Los Angeles County, on the north and west boundary, is included in the District's service area.

Phong Le

Phong Le smiled proudly as he received his associate degree in business administration during Cypress College's 50th Anniversary Commencement Ceremony, dressed in his navy gown adorned with a satin white sash bearing the letters "EOPS." Now transferred to the University of California, Irvine, he was one of more than 1,100 students who earned an associate degree as part of the college's Class of 2017.

Just four years earlier, Phong had been living in Vietnam — his home country — and didn't speak a word of English. When he first came to the U.S., he said, "I struggled with learning a new language, culture, and customs, but I was lucky and very excited because I knew that the opportunities in this country could allow me to pursue my dream of becoming a successful businessman." He aspires to become a Certified Public Accountant, earn a master's degree, and build his own practice.

Phong initially took English as a Second Language (ESL) courses at (now North Orange Continuing Education) to build and improve his English. He then continued his ESL and major-related education at Cypress College on the advice of his brother, friends, and counselors.

While at Cypress College, Phong was an exemplary student maintaining a 4.0 GPA throughout his semesters. He was also an active Extended Opportunity Program and Services student and became heavily involved in accounting and finance events organized by the Business/CIS Division and Business Club. He even participated in the Volunteer Income Tax Assistance Program helping low-income workers prepare their annual tax returns.

"I am proud of all the little accomplishments I have achieved while at Cypress College," he said. "I am proud of being an active and good student. I am proud of learning so many things I had not known before."

He continued, "I truly love Cypress College, its facilities, and the faculty."

Fullerton Has Tremendous Impact

“The Fullerton College Architecture Program has had a tremendous impact on me. Professors provide challenges and prepare students for real life skills. I am thankful to the instructors and for their support as a student in the Architecture Program. Attending Fullerton College has prepared me for the next level of my education.”

- Juan Raya-Garcia
