

Future Instructor Training Internship and Mentorship Program

Inspire and Engage Through Inclusive Education

To effectively engage community college students in the learning process, future instructors must be inclusive, inter-culturally competent, and able to integrate diversity, equity, and multiculturalism into their curricular content and teaching style.

This program aims to connect existing faculty to mentor future potential instructors in selected fields for fall 2018. This program will offer stipends and additional resources for participants, with the goal of closing the opportunity gap and fostering growth of the next generation of community college faculty.

Applications for mentors and interns will be accepted during spring 2018
